Bioenergetic Imprinter – Detox box

Imprint into the Detox box

- Place one hand on the input plate, and the Detox box on the **Output** plate.
- Actuate the start switch, making sure that one hand never leaves the input plate.
- One can also place homeopathic remedies onto the input box, and imprint the remedies into the Detox box. *Note, this only needs to be done once.*
- The Detox box can now be carried on a string around the neck, or in a pocket. The box has to be kept clean. If used in a pocket, use a small plastic bag.

- The Detox box can now be placed on the **Input** plate, and the user's hand placed on the **Output** plate. Next activate the imprinter. This is a way of double amplifying the user's vibrational signature as well as a method of stimulating the body to heal in response to the homeopathic remedies used.
